I absolutely love this!!! I was skeptical at first as these story games dont usually interest me. This one caught my attention. So I bought it to try it. I will admit it started off really slow and I was getting bored, but it picked up and got better. It does need more uncensored imagery with the story but the ones you do get are HOT! I hope they update this with more content and make it even hotter!. I named my goldfish Doctor Fishy :). I'm now questioning my sexuality.. Oh wow\u2026 It\u2019s been one day \u201cI've played this game\u2026

What a crazy ride, from the boredom of those pixel hunt game, long rant of nothing good to play, unfair competitive online game fatigue, into this. Game.

Honestly, I never know this kind of game would exist as I'm not actively looking into it. But \u201cI'm quite glad I found it. I enjoy it very much.

I mean, it\u2019s not the obvious part that everyone sees it at first glance that I enjoy. But its something else deep in the game. No, not that one either -\_-

I look through review, and most of them are what I would like to say. The story or the writing of it. \u201cWitty and entertain\u201d is most of the reviews here said. And I agree. \u201cI'm having so much fun on these jokes as \u201cI'm a programming these geeks and programming joke is cracking me up, but some are a bit over my head that it even makes me look some of them up (Like half an hour on the [lazycoder.com looking for that podcast she meant and didn\u2019t found anything D:](#))

[It makes me feel bad a bit now that the first few hours of this game I lost was on the pirated version of it. Well not anymore. screw my wallet. I'm just buying it full price here and no regret.](#)

[But since I buy this game, \u201cI'm kind of afraid, it an awkward game and no one I know plays it. \(But then again, I have like <10 friends on steam\) So, right after I buy it. \u201cI'm hiding like \u201cI'm in a closet myself. It sounds silly. hiding it from everyone. Set my steam status off. clear all earned achievement, so it does not raise anyone else suspicions. But in the end Discord game activity sold me out now all the server I joined know \u201cI've been pouring my soul into this game for 16 hours straight D:](#)

[Anyway, while \u201cI'm playing lots of moment in the game make me start questioning myself because I am on my last year toward graduation now. And the ending strikes me on what I will do with my life afterward. I know this is just fiction, but it has woken me up from my stupidity. I always joke about delaying my inevitable after I graduate. But now, what am I going to do with my life?](#)

[Anyway, enough with my annoying rant. FML. No one care.](#)

[About this game though? I F\\*CKI\\*G RECOMMEND THIS GAME.](#)
